

The La Trobe Financial Difference

With a history dating back to 1952, La Trobe Financial holds a long track record working in credit. Since launching retail funds management, we have provided investors with choice: choice through a range of portfolio accounts and even allowing investors to build bespoke portfolios aligned to their own investment goals.

Fast forward to today, and it remains our priority to offer investors even more choice. Choice in asset, choice in fund, and choice in delivery method. That's why we are proud to introduce the La Trobe Private Credit Fund. It allows investors to choose a portfolio of assets they understand, from a manager they trust, via the ASX.

La Trobe Financial is committed to delivering investment offerings from Australia and around the world to our investor base. Using our extensive internal capabilities, and global partnerships, we target unique investment products for Australian investors.

The La Trobe Private Credit Fund provides Australian investors with a unique opportunity to invest into our flagship 12 Month Investment Account and US Private Credit through a single fund listed on the ASX. The portfolio targets an equal allocation to each highly complementary strategy.

La Trobe Financial Asset Management Limited ACN 007 332 363 Australian Financial Services Licence No. 222213 is the responsible entity of the La Trobe Private Credit Fund ARSN 686 964 312. It is important you consider the Product Disclosure Statement (PDS) before deciding whether to invest or continue to invest in the fund. The PDS and Target Market Determination are available on our website.

* The target cash distribution yield is calculated based on the RBA Official Cash Rate as at the last Business Day of each month. The target cash distribution yield is an objective target only and may not be achieved. Any shortfall in net income generated may result in a distribution payment made out of capital invested. Future returns are not guaranteed and a loss of principal may occur. Investors should review the Risks summary set out in Section 8 of this PDS.

Any advice is general and does not consider your personal circumstances.

[†] As at 31 March 2026. The NTA per Unit is unaudited.

[^] The Responsible Entity (RE) will only be able to continue to buy-back 5% of the capital each calendar quarter off market where it would exceed the 10/12 Limit (10% of the smallest number of units that are on issue at any time during the previous 12 months) if the RE has obtained approval by ordinary resolution of Unitholders prior to effecting the off market buy-back. It is the intention of the RE to seek Unitholder approval when required so that it can continue to buy-back 5% of the issued capital each quarter off market. The RE may also conduct on-market buy-backs subject to the 10/12 Limit.

Unitholders will potentially be able to sell their Units on the ASX, subject to there being sufficient buyers of Units at a price that is satisfactory to the selling Unitholder, the ASX being open for trading and the Units not being suspended from trading.
