La Trobe Financial is required to comply with the Foreign Account Tax Compliance Act (FATCA) and the intergovernmental agreement entered into between Australia and the United States of America (U.S.) in relation to FATCA.

La Trobe Financial is also required to comply with the OECD Common Reporting Standard for the Automatic Exchange of Financial Account Information (CRS).

We are accordingly obliged to collect information from our investors as set out in this form and, in certain circumstances, report information in relation to the investor and the investment for FATCA and CRS purposes.

If you are uncertain of any of the matters set out in this form, including your status for FATCA or CRS purposes, you should seek specialist taxation advice.

FATCA is a U.S. law that we are required to comply with in the context of the intergovernmental agreement entered into between Australia and the U.S. The purpose of FATCA is to increase transparency regarding U.S. citizens and residents who hold offshore assets.

The CRS is a global framework that, similarly to FATCA, aims to increase transparency regarding residents of participating jurisdictions who hold offshore assets.

La Trobe Financial is required to identify, collect and report directly to the Australian Tax Office (ATO) various account-related information of certain investors. In particular, we are required to report to the ATO information in respect of investors that are, or are deemed to be:

- a U.S. citizen or tax resident;
- specified U.S. entities;
- certain types of non-U.S. entities that are controlled by U.S. citizens or residents (pursuant to FATCA); and
- foreign resident individuals, certain types of foreign resident entities, and certain types of Australian entities that are controlled by one or more foreign residents (pursuant to the CRS).

This information is then made available to the U.S. Internal Revenue Service and tax authorities of CRS participating jurisdictions.

If this form is not completed, we may be required to report any non-compliance to the respective authorities via the ATO. In certain prescribed circumstances, FATCA imposes a 30% withholding for non-compliance.
